Institutional Best Practices Report 2024-25

Institution: Vidyapath Institute of Technology (VITEC) | Academic Year: **2024-25** | Department: **IQAC**

Document ID: DOC-ACCR-028	**Criterion: Criterion 7**	**Status: ACTIVE**
Subcriterion: 7.2 Best Practices in Institutional Excellence	**Lead Officer: Dr. Rameshwar Rao, IQAC**	**Approved Date: 2025-05-19**

EXECUTIVE SUMMARY & ACCREDITATION SCOPE

Documentation of two flagship institutional best practices in NAAC format: Community Project Engineering Sprint and Industry Mentored Capstone Tracks.

Section 1: Best Practice 1: Project-Based Community Innovation

Best Practice I: 'Project-Based Community Innovation' mandates that every pre-final year engineering student team develop an engineering solution addressing a real rural or semi-urban problem.

In 2024-25, 48 community projects were completed, including solar water purification kits and low-cost automated paddy grain driers.

Section 2: Best Practice 2: Comprehensive Industry Capstone Mentorship

Best Practice II: 'Comprehensive Industry Capstone Mentorship' pairs final-year undergraduate project groups with corporate engineers for a full 9-month incubation lifecycle.

Over 84 industrial mentors from Hyderabad IT and manufacturing clusters participated, resulting in 26 conference publications and 4 startup prototypes.
