Annual Institutional Quality Report 2024-25

Institution: Vidyapath Institute of Technology (VITEC) | Academic Year: **2024-25** | Department: **IQAC**

Document ID: DOC-ACCR-001	**Criterion: Criterion 6**	**Status: ACTIVE**
Subcriterion: 6.5 Internal Quality Assurance System	**Lead Officer: Dr. Rameshwar Rao, Director IQAC**	**Approved Date: 2025-05-18**

EXECUTIVE SUMMARY & ACCREDITATION SCOPE

Comprehensive institutional progress report covering governance, admissions, pedagogical quality, faculty empowerment, research output, and infrastructural expansion at Vidyapath Institute of Technology for academic year 2024-25.

Section 1: Executive Governance and Quality Benchmarks

Vidyapath Institute of Technology (VITEC) consolidated its position as a leading engineering institution in Telangana during the 2024-25 academic year. Under the strategic direction of the Governing Body and Academic Council, the institution maintained strict adherence to outcome-based education benchmarks.

The Internal Quality Assurance Cell (IQAC) monitored continuous quality improvement across all seven criteria, conducting quarterly internal reviews and bi-annual academic audits across undergraduate and postgraduate departments.

Section 2: Academic Programs and Enrollment Profile

During 2024-25, total approved student intake stood at 1,080 seats across six engineering disciplines. Actual enrollment reached 1,028 students, reflecting an overall intake utilization of 95.2%. Student diversity indicators showed enrollment of students from 18 Indian states and Union Territories.

Gender diversity reached 38.6% female student representation in undergraduate engineering programs, supported by institutional scholarships and dedicated mentorship cells.

Section 3: Faculty Development and Empowerment

The institution conducted 18 faculty development programs during 2024-25, with 126 faculty participation records documented in the institutional registry. Faculty members completed advanced training in modern AI applications, outcome-based curriculum mapping, and flipped-classroom pedagogies.

Financial support amounting to Rs. 14.8 Lakhs was disbursed to 64 faculty members for attending national and international conferences, publishing in high-impact journals, and acquiring professional certifications.

Quarter	Programs Held	Faculty Participated	Grants Disbursed
Q1 (Jun-Aug 2024)	4 Programs	28 Faculty	Rs. 3.2 Lakhs
Q2 (Sep-Nov 2024)	5 Programs	36 Faculty	Rs. 4.1 Lakhs
Q3 (Dec-Feb 2025)	5 Programs	34 Faculty	Rs. 4.3 Lakhs
Q4 (Mar-May 2025)	4 Programs	28 Faculty	Rs. 3.2 Lakhs

Section 4: Research Publications and Sponsored Projects

Faculty researchers authored 142 research papers in Scopus and Web of Science indexed journals during the reporting cycle. Sponsored research grants totaled Rs. 1.28 Crores received from government agencies including DST, SERB, and AICTE.

The institutional seed money grant scheme supported 14 early-career faculty investigators with an aggregate funding allocation of Rs. 42.5 Lakhs.

Section 5: Campus Infrastructure and Student Progression

Campus physical infrastructure was augmented with 12 new smart interactive classrooms, a high-performance GPU computing cluster for the AI lab, and a 250 kW rooftop solar photovoltaic installation generating 36.2% of annual campus energy.

The Training and Placement Cell achieved 88.4% confirmed placements for eligible graduates, with the highest domestic package reaching 44.5 LPA.
