EXECUTIVE SUMMARY & ACCREDITATION SCOPE

Quantitative CO-PO attainment analysis across all 6 accredited engineering programs following NBA guidelines and direct/indirect assessment tools.

Section 1: CO-PO Attainment Calculation Methodology

Direct assessment of Course Outcomes accounted for 80% weightage based on continuous internal evaluations and end-semester tests, while indirect assessment contributed 20% via course-exit surveys.

Across 180 evaluated undergraduate courses in 2024-25, average program outcome attainment achieved 82.4% against the institutional threshold benchmark of 75.0%.
